

MR2707-48
Appln. No. 10/698,514
Reply to Office Action dated 9/14/2004

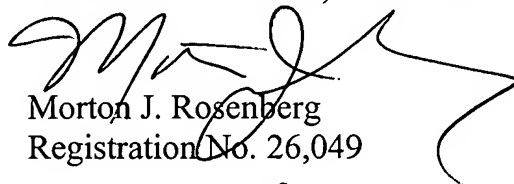

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 14 September 2004. In the Official Action, the Examiner has found in his opinion two inventions, namely Group I directed to Claims 1-17 drawn to a common spacer dual gate memory cell; and Group II directed to Claims 18-23 drawn to a method for forming a nonvolatile memory array. The Examiner has required Applicant to chose Group I or Group II for further prosecution in this case.

By this Response to the Restriction Requirement and Amendment, Claims 18-23 have been canceled from this case. Thus, Claims 1-17 are presented for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
FOR: ROSENBERG, KLEIN & LEE
